This guide is defining the current standard for the 8x8m official WCT® Quad™. It will be updated with each adjustment and state the current version of the Quad™. If you have any question, please refer to your regional manager.

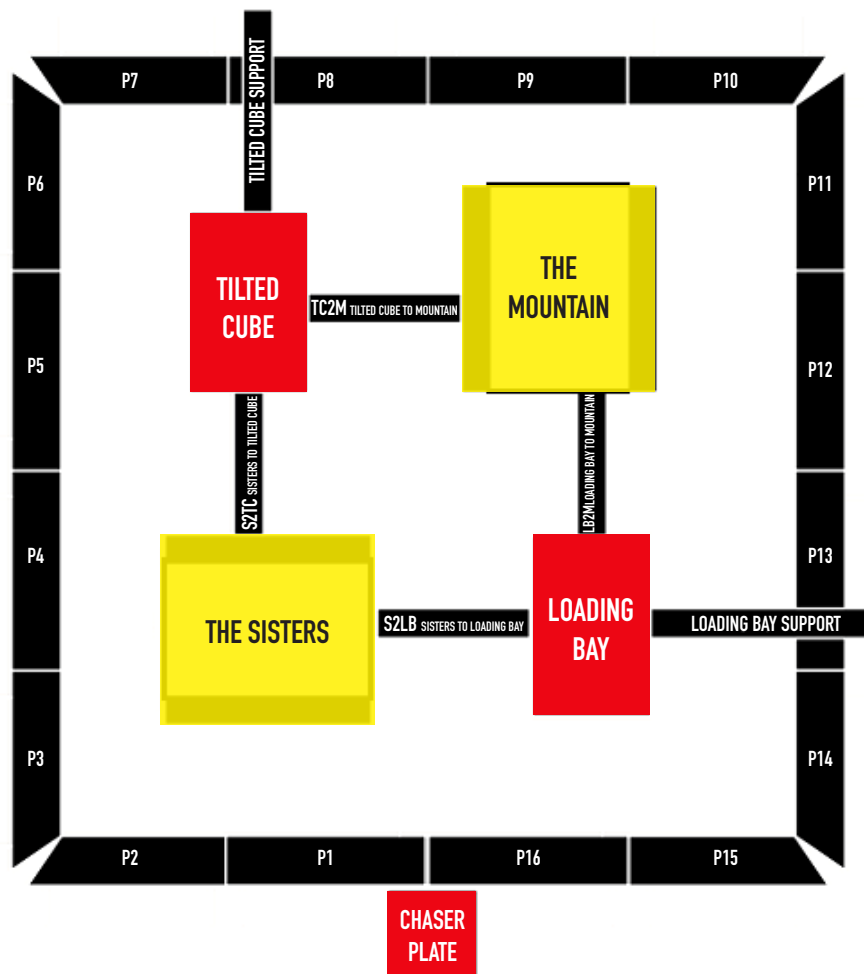

It's the duty of each licensee to keep their Quad™ up to date and as accurate as possible to this guide to provide the best training facility for athletes. A small difference of a few centimeters may not be visible to the audience or even an inexperienced coach but athletes will feel it almost immediately. Some areas will see their Evasion Quality (EQ) modified and movements that should be easily doable will become hard.

Current Version : 1.1

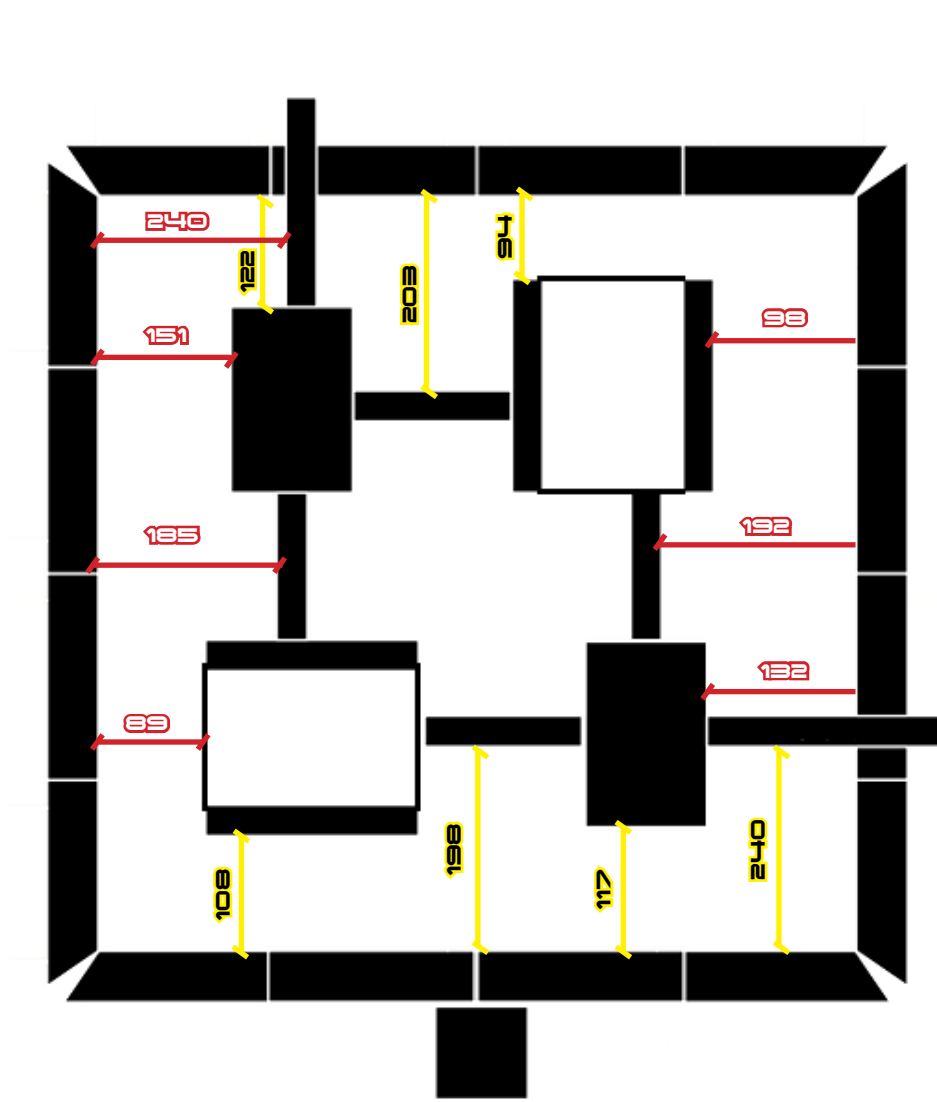

NAMING

To facilitate the use of this document and communication between licensees, we'll introduce the official names for each piece of equipment on this page.
